

Kandahar

News – Summer 2010

Kandahar subscription fees have now remained at the same rate for an historical amount of time – a decade! Our booking rates have stayed almost at the same levels with a modest rise in 2006: what a pity lift ticket pricing hasn't kept in step with us. Over this time Kandahar has had a facelift with K1's renovation in 2001 and now K2 is about to be transformed.

The Board has decided to extend the \$150 building levy for this one final year. This is to give us a bit of financial comfort and ensures we have funds for some maintenance items that will come up over the next few years.

I appreciate receiving your cheques in good time as prompt payment before 31 March helps with the Club's cash flow and reduces admin time (and I hate having to chase you). It is a requirement to pay with a member's cheque.

Priority weeks

Under 30's ski week: 17th–24 July

We'd like to offer our third generation members the chance to have their own ski week to fit in with uni holidays. If you are under 30 you can book for yourself and up to 3 friends. It's a good opportunity to ski with your peers - no kids or oldies. For other members who wish to book for that week, put your booking form in with your second preference for an alternative week.

Inter school race weeks

This year the Sydney Regionals will be held on 11–17 July and the Australian Regionals are on 8–12 September. First booking preference will be given to members with participating children.

Back to Perisher Week

SLOPES and Perisher will again hold the Back to Perisher week over Easter this year during the school holidays: Friday 5 April to Monday 2 April. For more information, contact Dave Woods, NPWS 02 6450 5616. Kandahar can't offer any accommodation due to our renovations.

K2 renovations

The renovation of Kandahar 2 is tracking well. Dave Humphries has made a few site inspections and is happy with the progress and quality of the work. The builder had to shovel snow off the deck in the third week of January but apart from such an unexpected bout of winter, it's all gone smoothly.

The building will be at lock up stage by the end of February. In anticipation of having the project finished by around 8th May, we'd like some volunteers to help get both lodges ready for the winter season.

We've pencilled in 15-16 May as a tentative date for this. If you think you can make yourself available please contact Dave Humphries, 0417 771 131 or dwhumphries@bigpond.com.

As previously mentioned, both lodges are unavailable for pre snow season 2010.

More photos are on our website.
